

Do you  
suffer from...

- Itching?
- Bleeding?
- Swelling?
- Soiling?

You're Not Alone.  
**Hemorrhoids**

Affect 50% of the Population by Age 50.

**Rx**

Permanent relief with the CRH D'Regan System<sup>®</sup>

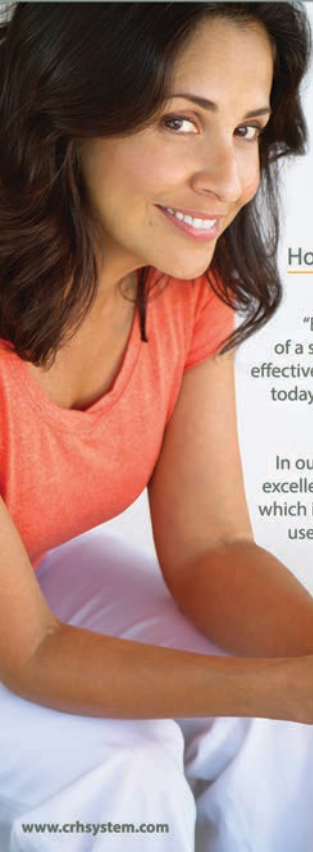

- ✔ Quick, effective & painless
- ✔ No prep, no sedation
- ✔ Return to work the same day

# What are Hemorrhoids?

CRH O'Regan System<sup>®</sup>

Non-Surgical Hemorrhoid Treatment

*Fast. Painless. Proven.*

Hemorrhoids are cushions of tissue in the lower rectum and anus that can cause pain, itching, bleeding and swelling. In more severe circumstances, they can extend through the anus (prolapse), and even clot or become gangrenous. Unfortunately, they don't "go away" on their own, and they tend to worsen

## How Does the CRH O'Regan System<sup>®</sup> work?

The CRH O'Regan System<sup>®</sup> is a product of CRH Medical Corporation

"Banding," or placing a rubber band around the base of a symptomatic hemorrhoid, is the most common and effective non-surgical hemorrhoid removal treatment used today. (Over-the-counter remedies only treat symptoms, not the underlying problem).

In our practice, we have taken banding to a new level of excellence! We utilize the patented CRH O'Regan System<sup>®</sup> which is smaller and more comfortable for patients. It also uses a gentle suction instead of metal toothed forceps to grasp the hemorrhoid, reducing the risk of pain and bleeding. The banded tissue typically falls off within a few days, and 99.8% of patients have no significant post-procedure pain!

Your doctor thinks you would benefit from the CRH O'Regan System<sup>®</sup>.
